

FS100 FUEL BANK

No nonsense Power Banks
Fuel for your smartphone

1X

The Fuelbank 1x is part of our user-friendly, no-nonsense Fuelbank range. This Xtorm Fuelbank allows you to charge your mobile devices wherever you are. You can charge your mobile phone, navigation system, GPS or tablet while you're on the go, for instance. You'll never find yourself stuck with an empty battery again.

The Fuelbank 1x has a 2500mAh internal battery and consequently has enough power to charge your smartphone once. If the battery in the Fuelbank is empty, simply connect it to a USB port or mains electricity to recharge it.

The Fuelbank has an LED power indicator that displays the remaining power level. Simply press on/off to start or stop the Fuel Bank charging process.

Ideal for daily use! Thanks to its compact size and light weight, the Fuelbank 1x fits easily into your pocket or handbag. With this convenient travel charger, you'll always have a back-up battery at hand to charge your mobile devices wherever you are!

In a nutshell:

- ✓ Compact and lightweight
- ✓ Charge your smartphone 1x.
- ✓ Ideal when you're on the go.

Features of the Xtorm Fuel Bank 1x

High efficiency

The Xtorm Fuel Bank 1x is highly efficient and ensures the least possible loss of energy during the charging process.

Auto Power Management

This Xtorm Power Bank is provided with the APM-chip. This means that the Power Bank automatically balances the correct charging speed and efficiently divides the power between the attached devices.

Fast Charging

The Fuel Bank 1x has a high input and high outputs. These features make it possible to charge the connected device as fast as possible and recharge the Power Bank itself on high speed.

Xtorm safety check

A-class batteries

Xtorm uses only the best battery cells that meet all safety requirements and can provide the fast charging you need

Overload protection

Xtorm mobile chargers protect the Xtorm's internal battery and the battery of the attached mobile device from overcharging.

Temperature control

All Xtorm chargers are provided with a temperature control chip that prevents overheating.

Auto Power Management

The Xtorm APM-chip automatically balances the power over the attached devices to prevent overcharging or overheating.
