

# Xtorm AC Power Bank Brick 21 000

AL480

The AC Power Bank Brick is an ideal solution that allows you to charge your electric devices anytime, anywhere. Thanks to its large capacity of 20 800mAh and the output of 220 V / 80W, the Power Bank is powerful enough to charge devices such as a laptop, drone, camera and of course smartphones.

## Versatile

The Power Bank has a total of four outputs. Devices using up to 220 volts can be charged via the socket. Thanks to the high output, mobile devices will charge very quickly via the USB ports. There is a separate USB-C™ port to charge USB-C devices. The Power Bank Brick itself can also be charged via the USB-C port using the cable that's included.

## Smart Design

A digital indicator shows precisely how much energy is left. The power flowing through the socket can be switched on and off to avoid wasting any energy. What's more the Power Bank has an Auto Power Management Chip, which automatically adapts the charging speed to the devices connected.

## Perfect match

Going completely off the grid, but still want enough power to charge a smartphone, camera, drone, or even a laptop? The Brick combined with a Xtorm Solar Booster is all you need. When traveling to remote places where you don't have access to a power outlet, the Solar Booster is still able to recharge the Brick by using only solar power. These two products are a perfect match, giving you the freedom and energy to go anywhere you want!

## In short

- Suitable to charge AC powered devices and mobile devices
- Powerful 20 800mAh Power Bank
- Contains a 220V AC outlet

## Technical specifications

Article	AL480
<b>EAN</b>	8718182273359
<b>Dimensions</b>	161 x 65 x 65 mm
<b>Colour</b>	Grey
<b>Weight</b>	698 grams
<b>Battery</b>	20 800mAh Li-ion
<b>Packaging</b>	Retail Box
<b>Input</b>	5V/3A
<b>Output</b>	Output USB 1 5V/2,4A Extra feature Quick Charge 3.0 (5/9/12V, 15W) Output USB 2 5V/2,4A In/Out USB-C 5V/3A Total output USB5V/4,8A (24W) Output AC 220V / 80W
<b>Included</b>	<ul style="list-style-type: none"> <li>• Manual</li> <li>• USB to USB-C cable</li> </ul>

## Features of the Xtorm AC Power Brick 21 000

### High efficiency

This Xtorm AC Power Bank Brick 21 000 is highly efficient and ensures the least possible loss of energy during the charging process.

### Auto Power Management

This Xtorm Power Bank is provided with the APM-chip. This means that the Power Bank automatically balances the correct charging speed and efficiently divides the power between the attached devices.

### Fast Charging

The AC Power Bank Brick has a high input and high outputs. These features make it possible to charge the connected device as fast as possible and recharge the Power Bank itself on high speed.

## Xtorm safety check

### A-class batteries

Xtorm uses only the best battery cells that meet all safety requirements and can provide the fast charging you need.

### Overload protection

Xtorm mobile chargers protect the Xtorm's internal battery and the battery of the attached mobile device from overcharging.

### Temperature control

All Xtorm chargers are provided with a temperature control chip that prevents overheating.

### Auto Power Management

The Xtorm APM-chip automatically balances the power over the attached devices to prevent overcharging or overheating.
