

# Power Bank Connect 5000

AL460

The Xtorm Power Bank Connect is a stylish solution that allows you to charge your smartphone, tablet and other mobile devices anytime, anywhere.

This Power Bank has a 5000mAh internal battery, providing enough energy to charge a smartphone at least twice. It is also possible to charge two mobile devices at once. As well as providing extra protection, the leather cover gives the Power Bank a luxurious look.

The Power Bank Connect includes several useful features that enhance the user-friendliness of this back-up battery significantly. Thanks to the built-in micro USB and Lightning cable, you will always have a cable to hand whenever you want to charge your mobile devices. The LED lights indicate how much battery the Power Bank has used, making it even more convenient. Simply press on/off to start or stop the Power Bank charging process.

Thanks to its flat design, the Power Bank Connect will easily fit into any handbag or inside pocket. The Connect 5000 is the ideal charging solution; for everyday use and business trips alike.

## Features of the Xtorm Power Bank Connect 5000

### High efficiency

This Xtorm Power Bank Connect 5000 is highly efficient and ensures the least possible loss of energy during the charging process.

### Auto Power Management

This Xtorm Power Bank is provided with the APM-chip. This means that the Power Bank automatically balances the correct charging speed and efficiently divides the power between the attached devices.

### Fast Charging

The Power Bank Connect 5000 has a high input and high outputs. These features make it possible to charge the connected device as fast as possible and recharge the Power Bank itself on high speed.

## Xtorm safety check

### A-class batteries

Xtorm uses only the best battery cells that meet all safety requirements and can provide the fast charging you need.

### Overload protection

Xtorm mobile chargers protect the Xtorm's internal battery and the battery of the attached mobile device from overcharging.

### Temperature control

All Xtorm chargers are provided with a temperature control chip that prevents overheating.

### Auto Power Management

The Xtorm APM-chip automatically balances the power over the attached devices to prevent overcharging or overheating.
